pureAir **The Advantage**

Cleans Air & Surfaces Throughout Your Home

Unlike filters that only affect air that passes through them, pureAir delivers powerful purification to the sources of pollution inside your home.

Brings Nature's Purification Indoors

Replicating the way Nature keeps the air clean in Earth's forests and mountains, pureAir transforms your stale indoor air into fresh, healthy air for you and your family to breathe. Enjoy the smell of freshness without expensive and toxic fragrances.

Kills Mold, Mildew, Bacteria, Viruses, and Odors

Utilizing four proven air purification technologies, pureAir significantly reduces all types of germs and fungus as well as eliminating odors of all kinds, including those from pets, cooking, and smoking.

Removes Allergens from Your Breathing Space

Your home should be a refuge from all that ails you, allergens included. The ionic power of pureAir causes allergens to clump together until they are heavy enough to fall out of the breathing space and be swept up or caught in your HVAC filter.

Easy to Set Up, Easy to Use

Comprehensive air purification need not be difficult to use. With easy to understand instructions on setup, use, and maintenance, improving the air quality of your living environment is a breeze.
